Applicant's arguments filed 9-17-04 have been fully considered but they are not persuasive.

Rejection is maintained as follows:

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Maretti(5,441,993).

Maretti discloses preparations of flexible polyurethane foams wherein 4,4'-diphenylmethane based prepolymers derived from polyols as claimed are reacted with alkylene oxide based polyols as claimed in the presences of water and under conditions which meet the Index and NCO content values as claimed (see column 3, as well as, the entire document).

Applicants' arguments have been considered, but rejection is maintained as set forth above. Maretti teaches the employment of semi-prepolymer techniques wherein prepolymers are prepared by partial reaction of the isocyanate with polyols which inherently reduces NCO values of the isocyanate component below that of non-prepolymeric isocyanate (see, specifically, column 3 lines 51-61). Difference based on this limitation is not seen to be evident.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
